

D2K – Wifi Camera

Defend – Security – Night Vision – Wifi – Weatherproof

Key Features

100% Wire-Free

High-Power IR LEDs

APP Cloud

Built-in Li-ion Batteries

Smart PIR Sensor

IP66

Weather Proof

Specifications:

LCD Screen:	Built in 2" TFT LCD Screen
Sensor Specification:	1/2.5-inch (4:3), 5M CMOS Sensor
Lens:	FOV (Diagonal) : 85 Degree; Auto IR-Cut-Remove (at night)
PIR:	FOV (Horizontal) : 65 Degree Distance : 10-12m PIR Sensitivity : 3 Sensitivity Level – High/Normal/Low
Image Pixel:	Default: 5 Mega Pixel, up to: 12 Mega Pixel
Video:	WVGA, 720P@30FPS; 1080P@30FPS File Format: MOV
Storage:	Micro SD Card (4-32GB)
Trigger Time:	0.4s
IR Flash Range:	8-10m
Operating Temperature:	-25°C~55°C

Power Supply: Battery –2x 3.7V 18650 Chargeable Lithium batteries, charging cut-off voltage is 4.2V DC Input -- DC power adapter (9-12v), solar panel (9V)

Mounting: 2 hold-down nut, supports to fix camera with 1/4 inch standard mounting holes and straps

Waterproof Level: IP66

Dimension: 106*88*55mm

App Cloud Management & No Setup

Cloud management

Receive PIR notification anywhere and anytime

Easy and simple check photos stored in cloud

Multi-camera management

Remote settings and sharing

6-9 Months

Ultra-long standby time, in terms of triggering 10 photos per day with Internet connection.

3000+ Photos

Once fully charged, it will take 3000+ photos with Internet connection, otherwise, it takes at least 12000 photos.

Rechargeable battery

Save your money with the included rechargeable battery.
