

D2K Rodent Stations

Using the Key

Rat Station

(the longest key on the triangle)

- 1 With Bait Station opening on your left;
 - 2 Place long key into the keyhole on top;
 - 3 Press down with a gentle action and turn to the left;
 - 4 Lift the lid to release.
- * When the unit is new the lock can be firm and may need a couple of turns.

Single Mice Station

(the double pronged key on the triangle)

- 1 With Bait Station facing you;
- 2 Place the key into the keyholes at the front;
- 3 Press hard to release.

Double Mice Station

(the double pronged key on the triangle)

- 1 With Bait Station facing you;
- 2 Place the key into the keyholes on both sides at the front;
- 3 Press hard to release.
